Forecast for Tuesday 24 Nov 2020

Weather: Rain will continue this morning, heavy at times. There will be some drier interludes this afternoon but remaining cloudy with drizzly outbreaks. The rain will be accompanied by strong southwesterly winds, gales higher up on the fells making for quite unpleasant walking conditions.

Chance of cloud free mountain/hill tops above 800m: 10% chance, for most of the day cloud will be extensive from 400m with very few breaks, perhaps some clearance for the peaks in the far north at times.

Visibility: Mostly moderate and becoming poor in heavier rainfall. In the north visibility may become good for a time in between rainfall.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View
Very strong winds in the morning, severe gales on higher fells, winds do begin to ease later in the evening. The fall in freezing level will be noticeable in the colder feel by the end of the day.

Forecast for Wednesday 25 Nov 2020
Weather: Rain clearing east early on Wednesday morning and cloud breaking and lifting to leave a pleasant day with sunny intervals and mainly dry, although feeling quite chilly. Cloud may thicken at times during the afternoon.

Maximum wind: Westerly 10mph gusts 15-20mph.

Chance of cloud free mountain/hill tops above 800m: 80%, cloud lifting above most summits to give good views across the Lake District Fells.

Visibility: Generally very good.

Temperature: **Valleys:** Plus 7 Celsius falling to 3 Celsius in the evening.
At 800m: Plus 1 Celsius
Freezing level: Around 1000m
